Organised by:

INFO INTERNATIONAL LTD

It is through a passion for the industry that LII was started by people in the industry for the industry in 2014. They saw a very real need for an event that brings together those who create scholarly, research and professional information and organisations that purchase these products.

For more information go to
www.londoninfointernational.com

With summer now here our second newsletter is an opportunity to round up all the exciting news, features and opportunities on offer from London Info International 2017

We welcome new exhibitors and sponsors every week to this year's event and here we introduce two of the very latest: Taylor and Francis and SAGE Publishing. In other sponsor news Springer will have a keynote speaker (to be announced) to close the conference and will then host a drinks reception for invited guests. Wired.Gov have joined us as media partners and we can now offer our community free subscriptions to the UK's No1 government and public-sector news.

We are also featuring Outsell – our exclusive research partner – LII can offer all our sponsors, exhibitors and conference delegates accessible rates to the Outsell Intelligence Platform Read about our quest for this year's Disruptor winner and take a closer look at our latest webinar which is the first in a series sponsored by Clarivate Analytics.

We are always keen to hear from you so if you have an interest in any of these items or simply want to make a suggestion please [contact us](#).....

In our next newsletter we will feature our brand new completed [conference programme](#) and some very attractive sign up offers.....

Taylor & Francis exhibiting in 2017

Taylor & Francis Group
an **informa** business

"We are pleased to be taking part in this year's London Info International. We are looking forward to meeting with existing customers, building new connections and showcasing our range of products and services."

Taylor & Francis partners with world-class authors, from leading scientists and researchers, to scholars and professionals operating at the top of their fields. Together, we publish in all areas of the Humanities, Social Sciences, Behavioral Sciences, Science, Technology and Medicine sectors. We are one of the world's leading scholarly publishers of scholarly journals, books, eBooks, text books and reference works.

Taylor & Francis Group is part of Informa PLC which operates at the heart of the Knowledge and Information Economy. It is one of the world's leading business intelligence, academic publishing, knowledge and events businesses. With more than 6,500 employees globally, it has a presence in all major geographies, including North America, South America, Asia, Europe, the Middle East and Africa.

SAGE Publishing confirmed at LII 2017

Sara Miller McCune founded SAGE Publishing in 1965 to support the dissemination of usable knowledge and educate a global community. SAGE publishes more than 1,000 journals and over 800 new books each year, spanning a wide range of subject areas.

Our growing selection of library products includes archives, data, case studies and video. SAGE remains majority owned by our founder and after her lifetime will become owned by a charitable trust that secures the company's continued independence. Principal offices are located in Los Angeles, London, New Delhi, Singapore, Washington DC and Melbourne. www.sagepublishing.com

Springer Nature increases their participation!

Springer Nature's Keynote Speaker will end the LII Conference and will then host a drinks reception for invited guests.

Springer Nature is one of the world's leading global research, educational and professional publishers, home to an array of respected and trusted brands providing quality content through a range of innovative products and services.

Every day, around the globe, our imprints, books, journals and resources reach millions of people – helping students to learn, researchers and scientists to discover and professionals to achieve their goals and ambitions. We see it as our role to challenge the status quo on our customers' behalf – finding new ways to accelerate learning and discovery and making it easier for the world to access, share, use and apply the very best research and information. The Springer Nature family of brands, businesses and imprints includes some of the most famous names in academic, professional and educational publishing.

SPRINGER NATURE

Latest conference programme news

We are busy finalising the detail of all the sessions, confirming keynotes, speakers and panel participants and will have a completed programme out next month.

In the meantime please do check out the draft conference programme here. This is our most ambitious programme to date. You can book to attend at a very **special 35% super early bird discount**. This includes all keynotes, main conference sessions, special receptions and lunches on both days.

Join us in central London in early December at this very special price.

OUTSELL®

London Info International 2017 offers clients access to Outsell's Intelligence Platform

London Info International has today announced that [Outsell, Inc.](#) has renewed its Exclusive Research Partnership. In this role Outsell will play an important part in supporting the event with high quality research, incisive analysis and insight. In an important extension of this relationship LII can also now offer its clients access to [Outsell's Intelligence Platform](#) at an accessible price point.

Outsell's ground-breaking research, including insights and reports, which cover the hottest trends and topics in the information space offer phenomenal market intelligence that will help inform, validate and quantify some of the discussions raised by our community.

Clive Snell – Director of LII 2017 said "This is a really exciting development for our partnership with Outsell. We can now offer our supporters preferential access to the first- class research and extraordinary analysis Outsell produces. This collaboration is another reason to participate in LII 2017"

Your FREE
WiredGov
subscription awaits!

We are delighted to announce that we've teamed up with WiredGov to provide all London Info International invitees with a completely free subscription to the UK's No.1 government and public sector news alerting service.

An indispensable service to government and public sector librarians, researchers, academics and policy specialists, WiredGov provides registered users with personally filtered up-to-the minute news alerts from over 160 government and public sector departments and agencies (many which are not available from Gov.UK). You're free to choose from hourly, daily or weekly alert delivery of your selected departments, agencies, key word or key phrases.

Simply click on the specially created London Info International invitation page below to find out more and activate your free WiredGov alert service:

London Info International 2017 is looking for Info Disruptors

Are you a start-up, a publisher or vendor with new and innovative products, platforms or content?

London Info International wants to invite you to pitch your new ideas, concepts and innovations in [Disruptor Zone 2017](#).

The Disruptor Zone will take place in London on 5th and 6th December as part of LII 2017. This is a competitive event that takes place within our open conference stream and on the showfloor and will be accessible for all LII attendees and conference delegates.

NexGEN, LII 2016 Disruptor Zone winners back in 2017

Nexgen Healthcare Communications attended London Info International in December 2016 and took part in the disruptor zone challenge with our new document presentation system POSTaPOSTER. We were delighted to win the first disruptor zone challenge and since then we have finalised the development of the system and associated website and have begun commercialisation with organisations, congress organisers and educational institutions.

The potential application of the POSTaPOSTER technology is very broad and we are confident that usage of the system will grow when users become more familiar with its application. POSTaPOSTER is jointly developed by NexGen Healthcare Communications and leading digital agency Tangent90

NexGen Healthcare Communications is a bespoke communications company focusing on key areas of expertise within the healthcare market place. With the huge changes underway in the healthcare environment companies need to be agile, flexible and receptive to new ideas and models of working. Our core focus of fresh approaches to communication activities and technology, smart experienced staff who are passionate about improving healthcare delivery for patients and who are closely connected to a huge variety of external organisations and groups associated with improving the delivery of world class healthcare services means we are perfectly placed to help our patients succeed in the healthcare market of the future.

Tangent90 are also exhibiting at LII 2017

LII 2017 presents our next webinar in collaboration with
Clarivate Analytics

Web of Science
Trust the difference

How has the concept of being citable evolved?

Wednesday 12th July 15.00 CEST, 14.00 BST, 9.00 EST

When the Journal Citation Reports (JCR) first released in 1975, the concept of being "citable" was introduced in the context of assessing a journal's performance impact, specifically the Journal Impact Factor (JIF) metric. How has the concept of being 'citable' evolved since then?

Paul Wouters, Director of the Centre for Science and Technology Studies and Professor of Scientometrics at the University of Leiden, will provide an authoritative perspective on how being 'citable' has evolved over the last few decades, in part as a consequence of the Web of Science, and in part based upon developments in the increasing importance placed by funders of research as well as university administration, on the measurement of research impact.
